Coordinator re-elected President of the NEON (National Energy Ombudsmen Network)

On 3rd February 2021, the online-general meeting of members National Energy Ombudsmen Network (NEON) was being taken. The Coordinator for negotiations at the President of the ERO (hereinafter referred to as the "Coordinator") is a member and President of NEON.

Association members present at the meeting elected a new board. The Coordinator entered the board and was re-elected President of NEON. Re-election for the position of President is an expression of the well-established trust of NEON members in the Coordinator and the confirmed recognition of his substantive and managerial competencies, which is particularly pleasing in the time of a pandemic when organizations face many changes. The other members of the association's board represent Italy, Belgium, Wallonia and Great Britain.
